

Thriving Beyond Prostate Cancer

A webinar on prostate cancer survivorship

TUESDAY, 21 NOVEMBER 2023 | 6:00 PM - 7:30 PM AEDT

In this ANZUNS webinar, we will explore how our pharmacy colleagues can play a vital role in educating prostate cancer patients and their families about androgen deprivation therapy (ADT) through the MENtor program. Additionally, we will discuss the invaluable support an exercise physiologist can provide in helping men on ADT maintain their health by staying active through a guided exercise physiology program.

In collaboration with AstraZeneca, please join us in this webinar to gain insights into improving the well-being and survivorship of prostate cancer patients. Don't miss out on this opportunity to learn about the important contributions of healthcare professionals in the journey of prostate cancer survivors and their families.
